SELECTION CRITERIA

The purpose of this program is to bridge the gap between the current USDF Sport Horse In-Hand Program and the training of sport horse prospects as they progress to under-saddle and competition. The correct training of young sport horses is universal; however, horses chosen to participate in the forum will be prioritized based upon their likelihood of a career as a dressage horse. Those interested in other sport horse disciplines are encouraged to apply or audit, as attending this program can be beneficial to anyone involved with young sport horses.

REQUIRED: Application **MUST** be accompanied by a link to an online video of applicant and the horse listed on the application and must show applicant working with applicant horse under saddle at the walk, trot, and canter. The video may also include work on the ground including work in-hand, lungeing and/or long lining.

The video must also show the applicant working with at least one other young horse under saddle at the walk, trot and canter. The video may also include work on the ground including work in-hand, lungeing and/or long lining with this additional horse.

Please provide the video link here:

REQUIRED: Application **MUST** be accompanied by a resume (no longer than one page) that includes the following information:

- Experience training and working with young horses. Emphasis should be on under saddle training, along with any relevant show experience and other accomplishment with young horses in hand and/or under saddle. Could include breed inspection results, etc.
- Horse's training history and show experience.
- Strengths and weaknesses of the horse, along with any training issues
- What you hope to gain from this experience and any issues you would like addressed during the forum.
- Minimum three (3) references (see attached form to be used).

The criteria in this application are meant to serve as guidelines for selecting participants for this forum. Accordingly, USDF reserves the right to select participants most suitable for this forum.
